

TP-1810B

CCTV Battery Backup Power Supply, 12V DC 10A 18-channel, Spare Fuses Feature Power On/Off Switch

Specifications:

Input voltage: 90-264V AC

Input voltage frequency: 50/60Hz

Output specifications:

Output voltage: 12 VDC

Total output current: 10A (500mA/output, 18 channels for 18 sets security cameras)

Total output: 120W

Fuse type: glass fuse

Fuse rating: 0.5A/250V AC

Protection:

General protection each output has individual fuse and LED indicator, when problem occurs, only affect the individual output, other outputs still working

Circuit short protection when short condition occurs, individual fuse will open the circuit, when condition removed, replacing another new fuse will back to close

High-voltage protection when high-voltage occurs, the surge protection will be hit through to protect the connected device

Over current protection when over current occurs, the power supply will automatically switch to self-protection status, when condition removed, then switch back to normal

Feature power on/off switch

Spare fuses included:

Unit maintains camera synchronization

Easy installation saves time and eliminates costly labor

Application:

CCTV camera, PTZ, IR illuminators, video process equipment and more

Access control reader, lock, panel, and more
